

The BluSonic is a wireless adaptor that allows you to stream music from any Bluetooth device directly to 30-pin Apple device compatible speakers. The BluSonic clips onto the speaker system, pairs with any nearby Bluetooth device (such as iPods, iPhones, iPads, PCs and other mobile phones) and then streams music straight to the speakers themselves. Small, easy to carry, with good sound quality and with a transmission range of 10 metres, the BluSonic is an ideal adaptor for users who need that that little extra volume.

- Pairs with all devices supporting Bluetooth A2DP, such as iPod, iPhone, iPad, PC and mobile phone.
- Small, lightweight, portable design.
- Transmission range up to 10 metres.
- Connects to any 30-pin Apple Device compatible speaker system.

□ Instruction

- 1. Connect Promate BlueSonic to Apple's 30-Pin connector in your speakers.
- 2. Pair BlueSonic with your handheld (Mobile, tablet or SmartPhone).
- 3. Search for BlueSonic and complete the pairing using the Pairing code "0000".
- 4. Play and control music through Promate BlueSonic and enjoy..
