Wireless USB Audio adaptor for Laptops and PC

Made for iPod iPhone iPad

2.4 GHz Wireless

Wireless Speaker 30M

Detachable Cuboid

Compatible Devices

Replaceable Dock

Simply put, the proCube is the be all and end all wireless speaker system. At its most basic, the proCube is a docking station for all Apple and Micro-USB devices that transmits audio to the wireless speakers, but it is really so much more. The proCube takes its name from its cuboid speakers, which are detachable, have individual volume controls and can even be panned (selecting stereo left or right). The speakers charge from the larger docking station which has its own in-built EQ. The dock comes with adaptors that charge both Apple and Micro-USB devices (and plays music from Apple device) and a 3.5mm audio jack for all other music devices. With a 30 meter range, the speakers can be positioned anywhere for the most perfect stereo audio experience imaginable. Also coming with a USB dongle to transmit directly from your computer, a remote control and a sleek design, the proCube is pure audio genius, through and through.

Also coming with a USB dongle to transmit directly from your computer, a remote control and a sleek design, the proCube is pure audio genius, through and through.

## Features

- Wireless stereo speaker system with in-built lithium battery
- Reroutes music from all Notebooks, laptops, PCs, iPads, iPhones, iPods and Android devices
- Detachable cuboid speakers with functional range of 30 meters and internal wireless dual amplifier
- Control volume and stereo pan directly from speakers themselves
- Internal wireless dual amplifier for speakers
- Integrated EQ, remote control and additional 3.5mm audio cable for compatible devices
- Wireless USB Audio adaptor for Laptops and PC
- Replaceable Apple or Micro-USB dock connector
- ABS plastic exterior with fabric mesh on speakers

*Note: Micro USB connector don't have audio output function, it only can charge the mobile device. So it needs to connect the 3.5mm cable to the mobile phone to play music*
