

Slim foldable Sync and charging Built-in battery IC control

Features

- Multifunction slim foldable docking for Samsung Galaxy Tab
- Mini-USB for data sync with PC and charging the docking unit
- High capacity built-in lithium polymer battery for device charging function
- LED power light for real time battery status indication
- Real 2A output current for quick Samsung Galaxy Tab charging
- Intelligent IC control for power, multiple over-current and over-heating protection

Specifications

Battery:	Lithium Polymer
Capacity:	5200mAh
Charging input:	via PC USB 5V/500mA – 13 hours via Power adapter 5V/1A – 6.5 hours
Charging output:	5V/2A

Packaging Contents:
proFlip.GT, Power adapter, User guide, Warranty card, mini USB cable

Dimensions:
164*89*13mm

Weight:
225g

Pcs in Master Box:
40pcs

Compatibility

Samsung GALAXY Tab

Certificates

FC CE RoHS
