

privMate.S3 is a screen protector that allows you to use your Samsung Galaxy S3 in complete privacy. Specially tinted plastic allows you and only you to see your screen, and tilting the phone even slightly renders the display invisible, perfect for stopping people from looking over your shoulder. The privMate.S3 offers long-term premium screen protection against dust, marks, smudges and scratches and allows for superior touch-screen sensitivity and anti-glare features. Complete with cleaning cloth and installation card, the privMate.S3 is simple to attach and easily removed, leaving no residue behind and without interfering with touch screen responsiveness.
